Harriman Enjoys Himself at
Count Inyone's Success-
ful Garden Party.

One Hundred Thousand Jap-
anese Troops to Stay in
Manchuria and Korea.

THE ASSOCIATED PRESS.—P.M.
OKIO, Oct. 10.—(By Pa-
cific Cable.) The officers of the
American warships Wisconsin
and Cincinnati, when the British fleet
was leaving Kobe, at an early hour this
morning, in single line formation,
headed by six torpedo-boat destroyers,
made it farewell with a display of
fireworks as the squadron passed
Wada Point. The Japanese fleet also
left for the eastward about the same
time and the long line of warships
made a sight which is rarely seen.

Vice-Admiral Sir Gerald Henry
Noel, commander of the British squad-
ron, will call again at Kobe after the
reception in this city. He will then
visit Osaka with a portion of the
squadron. The local papers will edi-
torially extend a welcome to the British
fleet tomorrow, October 11, and the
chairman of the Municipal Council
and several other officials will go
down to Yokohama to meet Sir Ger-
ald.

Three special trains will run be-
tween Tokyo and Yokohama during
the period of the fleet's official stay.

The garden party given by Count
Inyone today was an immense suc-
cess. A typical autumn day favored
the occasion. Harriman and party ap-
parently thoroughly enjoyed them-
selves. They expressed much admira-
tion for the Count's rare collection of
Japanese antique objects of art.

Miss Roosevelt passed through here
today for Yokohama, whence she will
start for America Friday, October 13.
She was accompanied by Master of
Ceremonies Nagasaki, Selgo, who
was especially detailed from the
Imperial Household Department as
traveling escort for herself and com-
panions.

RETURN OF THE ARMIES.
THE ASSOCIATED PRESS.—P.M.
VICTORIA (B. C.), Oct. 10.—The
steamer Kanagawa, from Japan,
brought news that arrangements have
commenced for the return of the Jap-
anese armies in Manchuria. One hun-
dred thousand troops will remain in
Manchuria and Korea. The remainder
of the twelve army divisions will be
landed at the port nearest divisional
headquarters.

At Kobe, large sheds have been
erected at the quarantine station at
Wada Point. The troops of the Nago-
ya, the Himeji and the Katsukawa di-
visions will be landed there, including
the Japanese troops who remain in
Manchuria and Korea. The remainder
of the twelve army divisions will be
landed at the port nearest divisional
headquarters.

The merchant steamers in the trans-
port service will not be released for
some months, the first to be freed be-
ing the American liners of the Nippon
Yusen and the Togo Kansen Kaisha,
which are expected to be turned over
to their owners about March or April
next.

The confiscated blockade runners
will be made ready to carry troops
and the work will be expedited as
much as possible, the Korean railroad,
being authorized to bring a large per-
centage of the Manchurian army
through Korea to Pusan. The major-
ity, however, will embark for Japan
at Newchwang and Daire.

CATT'S BODY TO SCIENCE GOES.
NEW YORK, Oct. 10.—[Exclusive
Dispatch.] In compliance with a
provision of the will of George Wil-
liam Catt, president of the Atlantic,
Gulf and Pacific Company, and a well-
known engineer, who died here last
Sunday, his body, after a funeral ser-
vice was held over it, today, was given
without restriction, to the Bellevue
Hospital Medical College to be used
in the interests of science. It is the
first instance in the history of the
city's dead that a person had made
such a bequest. The announcement of
the final disposition of the body was
made to about fifty well-known men
and women, who attended the funeral
service, and caused great astonish-
ment. Mrs. Catt approved.

DR. BEHRING REFUSES.

Will Not Accept Aid from Private
Individuals, Hence Bars
the \$50,000.

PARIS, Oct. 10.—[Exclusive Dis-
patch.] A New York dispatch re-
garding the offer made by one of the
wealthiest men of that city to present
\$50,000 to Dr. Behring if he would
make known his treatment has ex-
cited great interest in Paris. A New
York Herald and Los Angeles Times
correspondent called on Dr. Behring.
"I may say at once," said Dr.
Behring, "that I could not entertain
an offer of the kind in such a form.
I have made it a principle never to
accept any aid from private in-
dividuals. It would be an-
other thing if the offer came from the
American government."

KARL EDWARD WEDS TODAY.

DUKE OF SAXE-COBURG GOTHA
HAS ROYAL BRIDE.

Kaiser Wilhelm is at Glücksburg,
Aboard the Hohenzollern—The
Small Court Upset by the Many
Calls Upon Its Resources—Wireless
Telegraph to Shore.

GLÜCKSBURG, Oct. 10.—[Exclu-
sive Dispatch.] The small court here
appears quite upset by the calls upon
its meager resources, owing to the

arrival of many guests for tomorrow,
when Princess Victoria Adelaide of
Schleswig-Holstein, Souborg
Glücksburg married Duke Karl Ed-
ward of Saxe-Coburg Gotha.

Luckily, the Emperor brought his
own floating house, the Hohenzollern
as accommodations in the ancient
white-walled castle with its four oc-
tagonal turrets, built right into the
waters of the lake, are totally inade-
quate. The building looks less like a
royal palace than anything one can
imagine.

The Hohenzollern, flying the yellow
and black imperial standard, early in
the morning steamed to her anchorage
in Glücksburg estuary, having on
board the Emperor, the Empress and
their two younger sons. Prince Eitel
Fritz came by train.

A wireless telegraph has been es-
tablished between the Hohenzollern
and the shore, also telephonic com-
munication.

LOS ANGELES BEATEN.
Philadelphia an Easy Winner for the
Republican League Club
Convention.

ST. LOUIS (Mo.), Oct. 10.—[Exclu-
sive Dispatch.] Philadelphia easily
defeated St. Louis and Los Angeles,
today, for the next annual conven-
tion of the National League of Republican
Clubs, nine, seventeen, eighteen and
nineteen. Only St. Louis and Phila-
delphia competed in the executive
committee's final balloting, which
resulted as follows: For Philadelphia
10; for St. Louis 4.

Despite the announcement to the
members of the press, last night, that
Ferd K. Rule, president of the Calli-
fornia State League, was at last night's
dinner personally booming Los Ange-
les, the correspondent tonight learned
that Rule did not arrive in town at
all; that he started, but abandoned the
trip. A telegram from him ex-
pressing his regret at being absent
was read at today's meeting.

STANLEY DOLLAR A TOTAL LOSS.
VICTORIA (B. C.), Oct. 10.—Capt.
Casey, master of the steamer Stanley
Dollar, owned by the Dollar Steamship
Company of San Francisco, which was
sunk in the Japanese coast, re-
turned home by the steamer Kanagawa
today. He reports the Stanley Dollar a
total loss. The wreck has been sold for
\$12,500.

RAMSEY'S BACKSET.

Votes of Harriman
For Gould.

Wabash Directors Hold Meet-
ing Followed by Bond-
holders' Caucus.

Motion to Choose Directors by
Ballot Voted Down and
Roll Call Had.

Former President Will Con-
tinue in the Courts Fight
He is Making.

TOLEDO (Ohio) Oct. 10.—[Exclu-
sive Dispatch.] Veri-
fication of the proxies of
the holders of bonds of the
Wabash Railroad in the Gould-
Ramsey fight in voting them for
directors of that system occu-
pied much time today.

Two things of importance ap-
peared in the long session. First
and chief was an announcement
of Joseph Ramsey, Jr., former
president of the Wabash, to con-
tinue in the courts the fight
which he is now making for con-
trol of the directorate. The
second was what appeared to be
at least a partial reconciliation
between George J. Gould, Ram-
sey's opponent, and E. H. Harri-
man, when, of fifty bonds, Harri-
man, voted, forty-eight for
Gould and two for Ramsey.

The situation did not change over-
night in the slightest degree, and
there was no apparent abatement in
the confidence of either side. Ramsey
claims that it will not be possible
to retire him as a director, for the
reason that he controls at least one-
tenth of the votes, and under the
cumulative system of voting permissible
in Ohio, he will be able to reflect him-
self. The Goulds look upon Ramsey's
connection with the Board of Direc-
tors as a matter to be spoken of in
the past tense only.

"Mr. Gould has fully determined
that there shall be a change in the
Board of Directors," is the way they
put it.

There were rumors early today that
legal steps would be taken by Ram-
sey's attorneys to prevent the reelec-
tion as directors of the Wabash of
Gould, Russell Sage and James H.
Hyde, on the ground that they are
not directors of the Missouri Pacific,
which line parallels the Wabash be-
tween St. Louis and Kansas City, but
up to the time of the opening of the
meeting nothing had transpired in
this direction.

At the opening of the meeting, Col.
Doyle, acting for Ramsey, offered ob-
jection to Gould as presiding officer,
on the ground that he was a director
of the Missouri Pacific, a parallel
line to the Wabash. He also offered
objection to the three inspectors of
election, Reynolds, Cotton and New-
ton. Ramsey, arising said: "I also
offer objections as a stockholder."

On motion of Greer of the firm of
Pierce & Greer, Gould's legal advisers,
the objections were spread on the
records.

After the transaction of some
routine business, the regular meet-
ing was adjourned to permit of a caucus
of the bondholders. This caucus con-
vened in the same room as the general
meeting. Under the law, the bond-
holders have the right to choose six
directors, the stockholders six and
the twelve the thirteenth.

Greer nominated as directors for the
bondholders E. T. Welles, Winslow S.
Pierce, W. B. Saunders, R. C. Clowry,
Russell Sage and R. M. Galloway.

Col. Doyle, for Ramsey, demanded
that the directors be chosen by ballot.

The United States authorities have
only become aroused about the treaty
since Secretary Root came into office,
and the chances are that the treaty
would have been ratified if his advent
had been delayed a few weeks longer.
This is all the stranger, since the

treasury was placed in the hands of
Minister Squire at Havana, last May,
and until very recently the United
States contented itself with making a
perfunctory protest against the con-
vention.

It is now believed that the treaty not
only will give Great Britain navigation
privileges equal to any which this
country may obtain in the future, and
thus impair the hold the United States
has been slowly getting on the trade of
Cuba, but that it will make the island
of Cuba a positive menace to the
country may obtain in the future, and

ARRESTED AT WHITE HOUSE.

"Woman in Blue" Has Nothing to Say.

She is Found by Officers to be Without Arms.

Important Cabinet Matters, American Bankers.

(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Oct. 10.—(Exclusive Dispatch.) "The woman in blue," who was arrested at the White House by Secret Service Agent Sloan, is now in police custody, and her name will be tested. Her name is Mrs. Lucy G. Lee of Manhattan, Long Island, she made no resistance when arrested at the entrance to the executive offices at the White House, and was unarmed, as to the object of her mission, she refused information. She is of middle age, and has a husband and a son.

IMPORTANT CABINET MEETING.
HOLLAND AND CALHOUN REPORT.
(BY THE ASSOCIATED PRESS.—A.M.)
WASHINGTON, Oct. 10.—Two subjects of importance were considered at the meeting of the Cabinet today.

The report of Prof. J. J. Holland on his inquiry into the fiscal affairs of Santo Domingo, the situation in Venezuela as indicated by the verbal report of Judge W. J. Calhoun. No definite action regarding either of the questions was taken, so far as the cabinet is concerned. Informal but serious consideration was given to the subject of the participation of members of the Cabinet in local campaigns. The President let it be understood that, inasmuch as he had declined to be drawn into political controversies, he doubted the propriety of Cabinet officers, who are representatives of the administration, being engaged in campaigns in behalf of individual candidates, unless, indeed, their participation in campaigns was so connected with the duties of their office that they could not avoid it. In view of this discussion, although no definite decision was reached, it is probable that the Cabinet will confine their campaign speaking to their own States.

AMERICAN BANKERS.
MEETINGS AT THE CAPITAL.
(BY THE ASSOCIATED PRESS.—A.M.)
WASHINGTON, Oct. 10.—The trust company section and the saving bank section of the American Bankers Association held annual sessions here today, preliminary to the thirty-first annual convention of the association, which begins tomorrow.

In his annual address to the trust company section, President Folger said he did not wish to go on record as to whether or not there should be Federal control of trust companies, but he wished to emphasize the "frequent and rigid examinations, whether State or Federal."

PACIFIC COAST'S TURN.
INTERSTATE COMMERCE PLACE.
(BY DIRECT WIRE TO THE TIMES.)
WASHINGTON, Oct. 10.—(Exclusive Dispatch.) Senator Cullum today formally presented the name of Lieut. Gov. Sherman of Illinois to the President as a candidate for the vacancy in the Interstate Commerce Commission, which is shortly to be created by the retirement of Commissioner Fifer.

The President, however, did not manifest any symptoms of rejecting the name of Lieut. Gov. Sherman, but he did not believe he could make the appointment, because he had outstandingly a reasonably definite promise to Senators Bard and Perkins of California to give to a Pacific Coast representative the vacancy in the commission when the first vacancy occurred. This promise was made last winter.

WASHINGTON BRIEFS.

Conditions of Crops.
WASHINGTON, Oct. 10.—The monthly report of the Department of Agriculture gives the average condition of spring wheat at 35.2, corn 32.2, oats 22.4, barley 32.2, soybeans 22.4, potatoes 22.4, rice 22.4, tobacco 22.4, and other crops 22.4.

JAPANESE SEIZE GERMAN SHIPS.
TOKYO, Oct. 11, 12:30 p.m.—The German steamers *Emstrava* and *Hama* were seized yesterday off Fusan and Nishima, respectively. Both were bound for Vladivostok and it is alleged they carried contraband.

FEEDING CANAL LABOR.
PANAMA, Oct. 10.—(Exclusive Dispatch.) It is officially announced here today that the contract for feeding the canal employees has been annulled by the commission. This creates great satisfaction, as all classes of employees were in revolt against paying \$36 a month when the present rate of \$35 has been shown to be profitable.

CHOLERA DEADLY IN POLAND.
ST. PETERSBURG, Oct. 10.—The ship *Polonia* reports that there were 12 cases of cholera and 10 deaths from the disease in Poland from October 6 to October 8.

ESPEE AGENT IS HELD UP.
SAN FRANCISCO, Oct. 10.—G. H. Holston, agent of the Southern Pacific Company at South San Francisco, was held up by two masked men tonight and robbed of \$19. An immediate alarm was given and a posse is now searching about South San Francisco for the highwaymen. The agent was closing his office at 6:45 o'clock when he was confronted by the two masked men. One held a rubber, the other a knife. Considerable money was overlooked by the robbers in the haste, as Holston had \$20 in his pockets.

IT'S A GOOD TRADE.

IS THERE ROOM FOR "FAITHLESS MASTERS?"

NEW YORK, Oct. 10.—Three women and five men were chosen today to receive tablets in the Hall of Fame at New York University when the canvass of the votes in the second quinquennial election was completed. Maria Mitchell was the only American scientist to be elected at this time, though Louis Agassiz, with eighty-two votes secured admission as a foreign born American. A curious commentary on Maria Mitchell's election is the fact that eight of the electors, chiefly scientists, refused to vote for any woman, thus reducing the number of votes necessary to elect a woman to forty-seven, while fifty-one were required for a man.

Mary Loan, founder of Mount Holyoke College and Emma Willard, the author of "Rocked in the Cradle of the World," were also elected.

TAKING STOCK OF BUSINESS.
BANKERS OF THE COUNTRY HOLD IMPORTANT MEETINGS.

Question of Federal Control of Trust Companies Referred to Somewhat Evasively—Savings Bank Section Votes to Make an Experiment in Taking Statistics of Savings.

(BY THE ASSOCIATED PRESS.—P.M.)
WASHINGTON, Oct. 10.—More than 2000 bankers have registered their attendance at the thirty-first annual session of the American Bankers Association, which will convene in the new National Theater here tomorrow. Several meetings of sections of the association were held here today, when important action affecting various phases of the banking interests were taken.

At the meeting of the trust company section, the question of Federal control of the trust companies was referred to somewhat evasively. No one came out squarely in advocacy of it, but each speaker voiced decided sentiment in favor of adequate inspection. The savings bank section voted to make an experiment in taking statistics of savings accounts throughout the country. A publicity section was organized and various committee meetings held.

WISCONSIN CENTRAL DIRECTORS.
MILWAUKEE, Oct. 10.—"New and strong interests have come into the Wisconsin Central property. No change is intended in the plans or policies of the company; on the contrary, the company will be enabled to push its plans more vigorously. Two changes have been made in the Board of Directors to give this new interest representation. Newman Erb of New York, and G. M. Cummings, president of the United States Mortgage and Trust Company, New York, are the two new members of the board.

The above statement, as a result of the annual meeting of the Wisconsin Central Central property, was given out at the conclusion of the meeting. Newman Erb succeeds John C. Brown of New York. The Board of Directors will elect the list of officers at a meeting to be held in New York next month.

An immediate alarm was given and a posse is now searching about South San Francisco for the highwaymen. The agent was closing his office at 6:45 o'clock when he was confronted by the two masked men. One held a rubber, the other a knife. Considerable money was overlooked by the robbers in the haste, as Holston had \$20 in his pockets.

(Continued from First Page.)

This was voted down, and the men were chosen by roll call. Ramsey's attorneys demanded that a proxy be shown as each name was called. There were great numbers of these, and the operation consumed much time.

Ramsey and his attorneys insisted upon examining every proxy as it came in, and checking it up with the list of their own proxies. The proceeding was slow and tedious, and one and one-half hours were consumed before the letter "B" was exhausted. Although no figures had been given out by the inspectors of elections, it is believed that the vote to be taken the first thing tomorrow will show that Gould has behind him about \$22,000,000 of the bonds and that Ramsey has in the neighborhood of \$2,000,000. This makes certain that six men nominated by the Gould faction of directors representing the bondholders will be elected. These men are Russell Sage, Winslow S. Pierce, R. T. Wallis, W. B. Saunders, R. C. Clowry and E. D. Galloway. Ramsey has not shown sufficient strength to enable him to hold his seat as a director, and it is believed he is weaker in stock proxies than he is in the bonds.

At the night session, Ramsey's attorneys took the stand that no man should be allowed to vote unless he is the actual owner of stock at the time of the meeting. They submitted affidavits covering about \$1,000,000 of bonds, in which the affidavits declared themselves the actual owners of stock which stood in other names on the stock list at the time the books were closed prior to the election. The proxies for this stock had been given to Gould in every instance, and the persons declaring themselves the present owners had given proxies to Ramsey.

Chief among these was James K. Keene, who gave a proxy of \$200,000 to J. W. Henning & Co. of New York, who gave one for \$154,000. The inspectors ruled against Ramsey in every instance, holding that the bonds could only be voted by the persons in whose name it stood at the time of the closing of the books.

THE ROOT OF THE MATTER

He Cured Himself of Serious Stomach Trouble, Getting Down to First Principles.

A man of large affairs in one of our prominent eastern cities by too close attention to business, too little exercise and too many club dinners, finally began to pay nature's tax, levied in the form of chronic stomach trouble; the failure of his digestion brought about a nervous irritability, making it impossible to apply himself to his daily business, and finally deranging the kidneys and heart. In his own words he says: "I consulted one physician after another and each one seemed to understand my case, but all the same they each failed to bring about the return of my former digestion, appetite and vigor. For two years I went from pillar to post, from one sanitarium to another. I gave up eating I quit coffee and even resorted to a daily glass of two of beer without any marked improvement. Friends had often advised me to try well known proprietary medicines, Stuart's Dyspepsia Tablets, and I had often pursued the newspaper advertisements of the remedy but never took any stock in advertised medicines nor could I believe a 30-cent patent medicine would touch my case."

"To make a long story short I finally bought a couple of packages at the nearest drug store and took two or three tablets after each meal and occasionally a tablet between meals, when I felt any feeling of nausea or discomfort. "I was surprised at the end of the first week to note a marked improvement in my appetite and general health, and before the two packages were gone I was certain that Stuart's Dyspepsia Tablets was going to cure completely and they did not disappoint me. I can eat and sleep and enjoy my coffee and cigar and no one would suppose I had ever known the horrors of dyspepsia. "Out of friendly curiosity, I wrote to the proprietors of the remedy asking for information as to what the tablets contained, and they replied that the principal ingredients were ascorbic acid (vitamin), malt, dextrose and other natural digestives, which digest food regardless of the condition of the stomach."

The root of the matter is this, the digestive elements contained in Stuart's Dyspepsia Tablets will digest the food, give the overworked stomach a chance to recuperate and the nerves and whole system to receive the nourishment which only good food can furnish. Stomach and nerve tones never give real strength, they give flimsy strength, invariably followed by reaction. Every drop of indigestion, every nerve and tissue is manufactured from our daily food, and if you can insure its prompt action and complete digestion by the regular use of good and wholesome as Stuart's Dyspepsia Tablets, you will have no need of nerve tonics and stimulants.

Although Stuart's Dyspepsia Tablets have been in the market for only a few years, probably every druggist in the United States, Canada and Great Britain now sells them and considers them the most popular and successful of any preparation for stomach trouble.

been perfected here. L. E. Hanchette has bought for \$60,000 in cash the Santa Clara Interurban Railroad Company. He has also purchased for \$80,000 the San Jose and Santa Clara Railway Company. Of the purchase price, he has paid down \$10,000 in cash to bind the bargain.

The presumption is strong that Hanchette is acting for the Western Pacific people, and that they intend to have an electric system south from the city. The franchise for the entire distance, including the streets in San Jose, is for an electric road for the handling of freight, passengers and express.

The company has a stock issue of \$100,000, none of which has been sold to outsiders and all of which was turned over to Hanchette yesterday. The franchise in question and the right of way bought across private property are the two valuable assets which Hanchette has bought.

MYSTERY IN "TOUCH."

Victim of Pickpocket Misses Watch and Money After Evening Spent With Friends.

Robbed of \$50 in currency and his gold watch while in the company of several of his business acquaintances in a leading downtown hotel—this was the strange experience of C. E. Palmer, real estate man of No. 1437 East Forty-fifth street.

Palmer told a peculiar story to the police last night. He said he met some business friends last night in a Spring street hotel and talked over several real estate matters. Later he visited the office of two business companions and talked further on business lines. Then he returned to the hotel. He said he missed his purse containing \$50 and when he started to ascertain the time, he found that his watch was missing. He said he was sure that the place had been deftly abstracted from his pocket.

Palmer refused to divulge the names of his business companions and he informed the police that he did not suspect them. He thought he might have been a victim of pickpockets on the streets. Palmer is a confidential man in the employ of a leading real estate firm.

PORCH CLIMBER AGAIN.

"Second-story Man" Makes His Appearance and Reels House on North Broadway.

Has a successor to P. David Kinley, the noted porch climber who was captured in this city a year ago, made his appearance in Los Angeles.

Kinley is now serving a life sentence in the penitentiary for murder committed in Oakland, but before the "porch climber" was captured while trying to enter a Chester place home, he "turned many tricks" in the fashionable residence districts.

The new climber introduced himself on North Broadway last night. At No. 322 the burglar climbed up some trailing vines to a second-story window, where he cut a hole through a wire screen and entered the room of L. Greenwood. Lodgers in the house heard the thief ransacking rooms up and down the stairs, and the intruder was promptly started, but he did not escape by the back stairs, after he had rifled a dresser drawer of a purse containing \$40.

A short time before the Greenwood burglary, the thief, supposed to be the same one who entered the house of D. Thompson, No. 321 North Broadway, through the front door, but he beat a hasty retreat when occupants of the house were aroused.

FORTY HEAR "CURFEW."

Police Catch Lot of Youngsters Out Too Late Watching the "Fire-works-Crusade" Begun.

Forty boys—some of them of tender age—fell into a police dragnet stretched around Frager Park last night during the fireworks display in Paine's "Last Days of Pompeii."

Because the boys wanted to witness the eruption of Vesuvius they clustered in herds about the park, all unmindful of the fact that Los Angeles has a curfew law. Three policemen rounded up two scores of the youngsters before the alarm spread and others hastily departed. The boys were sent to the Police Station and locked in jail because the Detention Home could not accommodate them. As a general rule, the youngsters were all from good families. Parents were notified by the police as quickly as possible, and several of the lads were released on bail of \$5 each. Others spent the night in jail.

Talmy, but this was counteracted by the definite understanding arrived at between the government and the company to the effect that no action shall be taken except through the channels of the French Legation at Caracas, which is under M. Talmy.

The officials here do not regard the situation as critical or pressing, and therefore are content to await the result of the conferences of Ambassador Jusserand with the authorities at Washington.

WANT REPORT PRINTED. WASHINGTON, Oct. 10.—Mrs. Daniel Manning of New York, president of the Board of Lady Managers of the St. Louis Exposition, has given notice that she is coming to Washington this winter to induce Congress to print the report of the body. This document contains 125,000 words and in print would make a bulky document.

Representative Charles B. Landis of Indiana, chairman of the House Committee on Printing, has been advised of Mrs. Manning's intention. He is opposed to the government bearing the cost of the printing and the distribution of the report of the lady managers.

Mrs. Potter Palmer of Chicago came here in the winter of 1904 with the avowed intention of having the report of the lady managers of the Chicago World's Fair printed and distributed. She remained in Washington two weeks, but was unsuccessful in her mission.

Side Talks By the Office Boy

It is a wise son that covers his own father. I've often noticed that a boy with plenty of money and friends to burn, but when he goes broke, he finds he has burnt most of them. Did you ever work in a shoe and have some fellow you know mightily buy three dollars worth from one of the salesmen and proffer a ten-dollar check in payment, and when the salesman asks him if he knows anybody in the store who can identify him, he says, "Yes, I know the Office Boy, and when they trot you out, you say, 'Yes, I met the chap at a party, and I guess that's his name all right,' and they cash the check on a few dollars and give the fellow the balance of seven good dollars in money and a few more dollars in store credit. It is really a splendid thing to do, and it is really a splendid thing to do, and it is really a splendid thing to do."

COUNTERFEIT COIN ON TRANSPORT?

FEDERAL AUTHORITIES HOLD
VESSEL AT HONOLULU.

About Six Hundred Bad Dollars
Reported Passed at Nagasaki, but
Only One Bill Got into Circulation
in Hawaii—Authorities Notified
That Large Sums are Aboard.

(BY THE ASSOCIATED PRESS—P.M.)

HONOLULU, Oct. 10.—The United States transport *Sherman*, en route to San Francisco, is being held here by United States Attorney Breckons and United States Marshal Hendry, pending an investigation of reports that a large amount of counterfeit American money is aboard. Nine men have been arrested. Of these three are being held as witnesses.

According to information received, \$600 of the counterfeit money was passed in Nagasaki. Apparently, but little effort was made to pass any here. But one \$10 bill was offered at a local bank and as a result C. H. Murphy was arrested. United States Attorney Breckons has the bill in his possession.

According to reports received by the authorities there are large sums aboard. A hurried investigation made here without result at first and the local officials are said to have notified the secret service at Washington regarding the rumors in order that the investigation might be continued when the *Sherman* arrived at San Francisco.

The attempt to pass the bill at a local bank gave the officers a clue and the vessel was detained here. While a further investigation was made, as a result, five men, in addition to Murphy, were placed under arrest. Two of the men, who are marines, are charged with having counterfeit money in their possession. The *Sherman* sailed at 5 o'clock tonight. She has on board, under arrest, a man named Chilton, who, it is alleged, conducted a gambling game on the transport.

IDENTIFIED BY PINKERTON.
DEAD BERGELEY BANK ROBBER.
(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 10.—(Exclusive Dispatch.) William A. Pinkerton has identified the bank burglar killed at West Berkeley, Cal., September 27, as "Matt" Kennedy, a desperado with an international reputation. Kennedy's record is stained with blood. His polished manner and superb nerve enabled him to pose as banker, capitalist, race-track gambler or tough. He was known as "Haffies" to his associates, among whom was "Blinky" Morgan, hanged for committing a murder. The release of Kennedy from two detentions.

Kennedy first came into prominence when he robbed the postoffice at Windsor, Ont. He and William Callahan, his partner, were captured. They killed their jailer at Sandwich, Ont. Callahan escaped but Kennedy was caught and sentenced to two years in prison. After a year's imprisonment, he escaped. A year later, he turned up for a fur robbery in Ohio. He was captured but "Blinky" Morgan and his gang headed the train, beat one guard to death, captured the skill of another and helped Kennedy to escape. Kennedy then fled to Australia, returning to California in 1928, when he joined a band of crooks led by Charles Howard.

FUGITIVE MURDOCK CAUGHT.
FAMISHED AND DEMENTED.
(BY DIRECT WIRE TO THE TIMES.)

SEATTLE (Wash.), Oct. 10.—(Exclusive Dispatch.) T. F. Murdock, who escaped from the Tacoma City Jail and attempted to win a fortune in Alaska, has been found on Cook Inlet, famished and demented. On the way to the interior, a raft carrying Murdock and his partner, Fred Smith, overturned in the rapids of Matanuska and Smith was drowned. Murdock abandoned the raft and plunged through the woods on the left bank of the river, where he had been hiding. He was found by a boat at the mouth of the Chickaloon, which he rode down to the mouth of the Copper River. On the night days, as he computed the time, without food, except a few salmon, which he speared.

On the right bank of the river, a furlong from where Murdock dragged himself through the underbrush, was an open trail over which the miners carry supplies.

CRIME BRIEFS.

Texas Banker Commits Suicide.
ROBERT L. (Tex.) Oct. 10.—P. B. Gray, director of the Commercial National Bank of this city, shot himself twice with a revolver today, dying almost instantly. He was about forty years of age and rated high in Texas banking circles. There is no plausible reason for the act. The Commercial National Bank is one of the strongest institutions in Texas.

Shoots up Business District.
HARPER (Kan.) Oct. 10.—While intoxicated last night, J. A. Akin, proprietor of a shooting gallery, made the rounds of the business district, firing his revolver at random and chasing everyone off the street. Mayor W. G. Muir was hit and seriously wounded, and Fred Lyons, a man named Meyer and the mayor's son were slightly wounded. Mayor Muir will recover. Akin was arrested.

Conductor Had Cash Registers.
KANSAS CITY (Mo.) Oct. 10.—In the arrest here yesterday of a conductor who had two cash registers in his possession, the secret-service department of the Metropolitan Street Railway Company believes it has unearthed a company that manufactures bell registers for use by dishonest conductors in stealing fares. The bogus registers in the possession of the conductor arrested is said to have been put out by a San Francisco firm that furnishes them to conductors in all parts of the country.

Hart Held for Grand Jury.
CHICAGO, Oct. 10.—Charged with having caused the death of ten-year-old Irene Klokow by administering arsenic, Dr. A. B. Hart was held to the grand jury today without bail by a coroner's jury at the conclusion of the inquest on the body of the girl, today.

Worried About Disfranchisement.
BIRMINGHAM (Ala.) Oct. 10.—Having received a message from the government Secret Service officials at Washington saying that H. S. Howard of Birmingham, had been writing insinuating letters to President Roosevelt, the local police today arrested Howard, who proved to be an aged negro. He admitted having written the President two letters, but denied that they were of an insinuating nature. Howard said he had worried over the disfranchisement of the negro and had thought out a plan for the colonization of the negroes. Howard was allowed to go.

ROSY OUTLOOK IN ALL LINES.

DUN'S SEPTEMBER REVIEW OF
SOUTHERN CALIFORNIA.

Bean Crop Promises to be Large
and Prices Rule Higher—Walnuts
Begin to Move, Market up One
Cent on Estimate of Decrease in
Yield—Orange Prospects.

A rosy outlook for the growers of fruits, vegetables and nuts is indicated by the review of trade conditions in Southern California, furnished by the R. G. Dun Mercantile Agency. Building and business for that month were at a high point, while the small number of business failures in that period was even less than those of the same month last year. The review is as follows:

Interest of Southern California agriculturally just now centers in the bean crop which promises to be very large. Threshing is progressing rapidly. The yield in Los Angeles and Orange Counties totals 150,000 sacks and it is conservatively estimated that Ventura county's output will go beyond the 600,000 bag mark. Many contracts have been made at 3 cents but growers who have not sold are holding for 3 1/2 and 3 3/4 cents. Prunes may go higher, it is not reasonable in existing conditions for them to go lower.

The sugar campaign is about half finished. Sugar contents still run high, averaging about 14.5. The sugar crop will be large. There is every reason to believe from the general situation that the sugar market will rule low for months to come.

The canned fruit and vegetable market is in particularly good shape. Business has been heavy for September and demand continues brisk all over the country. The shortage in the eastern market has been heavy for September and demand continues brisk all over the country. The shortage in the eastern market has been heavy for September and demand continues brisk all over the country.

Raisin crop is turning out better than was expected. Amalgamation of growers and packers is now well accomplished and the new association announced prices recently arranged on the basis of the 14 or 15 percent. Raisins are 10 cents, 11 cents, 12 cents, 13 cents, 14 cents, 15 cents, 16 cents, 17 cents, 18 cents, 19 cents, 20 cents, 21 cents, 22 cents, 23 cents, 24 cents, 25 cents, 26 cents, 27 cents, 28 cents, 29 cents, 30 cents, 31 cents, 32 cents, 33 cents, 34 cents, 35 cents, 36 cents, 37 cents, 38 cents, 39 cents, 40 cents, 41 cents, 42 cents, 43 cents, 44 cents, 45 cents, 46 cents, 47 cents, 48 cents, 49 cents, 50 cents, 51 cents, 52 cents, 53 cents, 54 cents, 55 cents, 56 cents, 57 cents, 58 cents, 59 cents, 60 cents, 61 cents, 62 cents, 63 cents, 64 cents, 65 cents, 66 cents, 67 cents, 68 cents, 69 cents, 70 cents, 71 cents, 72 cents, 73 cents, 74 cents, 75 cents, 76 cents, 77 cents, 78 cents, 79 cents, 80 cents, 81 cents, 82 cents, 83 cents, 84 cents, 85 cents, 86 cents, 87 cents, 88 cents, 89 cents, 90 cents, 91 cents, 92 cents, 93 cents, 94 cents, 95 cents, 96 cents, 97 cents, 98 cents, 99 cents, 100 cents.

THE ARMY RATION

A Good Suggestion From an Old Soldier.

The government has been experimenting for some years seeking a condensed food to be used by soldiers in case of emergency when the army shall cut loose from its base of supplies and cast off its wagon trains and the troops shall carry their rations for a number of days in their haversacks. While some progress has been made the problem has not yet been solved.

A veteran from the Civil War, writing from New England, says in this connection: "I have been using Grape-Nuts food for some time, and my liking for it increases with use. I find it extremely palatable, and not only digestible, but an aid to the digestion of other foods which used to give me trouble."

"What has particularly struck me is the fact that a very small quantity of it is sufficient for an entire meal—that I really need no other food. It is my custom to begin my breakfast with two heaping tablespoonfuls of Grape-Nuts with cream. By the time I have eaten that I find that my appetite has been completely satisfied. I feel the comfortable sensation of one who has breakfasted wisely and well, and while I sometimes eat a little of other things, I do it more as a matter of habit than anything else. I find that I can go till noon on the two tablespoonfuls of Grape-Nuts and cream alone, and what is also an important consideration, without any uncomfortable sense of fullness, such as I usually feel when I eat my old style breakfast. Especially is this so if I drink a cup of good, hot Postum Coffee with the meal, for I must confess the old kind of coffee fills me full of gas and discomfort for some hours after I drink it."

"Now it has occurred to me that Grape-Nuts food ought to be added to the ration for the reason that it furnishes so much satisfying, nourishing food in such small bulk. A soldier with a package of Grape-Nuts in his haversack would have a food supply adequate for several days of marching and fighting. It wouldn't take up much room, and the weight is nothing."

"There's a reason."

Look in each package for the famous little book, "The Road to Wellville."

Its quality explains why it is
the largest-selling Turkish cigarette
in the world.
Its sales explain why that quality
can be given for ten cents a package.
If it were less popular it would cost
more—cigarettes as good cost twice as
much.

Since the Boer War the scale of wages paid to laborers of all sorts in the South African Diamond Mines has been advanced. In this war England learned an expensive lesson and it may be safely assumed that the conditions that existed before the War, when the half civilized Kaffirs did the manual labor at starvation wages, will never be repeated.

South Africa is now developing wonderfully and the best judgment is that the substitution of civilized laborers for black men must still further advance the price of rough Diamonds. Thus again we see that every advance in the cost of Diamonds is from perfectly natural causes.

It is an indisputable fact that Fine Perfect Diamonds have advanced more in proportion than off-color or flawed stones. Therefore we advise the purchase of only High Grade Diamonds and offer the Brock & Feagans Quality Blue White and Extra White Diamonds for your consideration.

Barney and the "Recall" are
Lost in the Shuffle.

De Ate Ward has a sore throat this morning; but it had a lovely time yelling at the "recall" meeting last night. They didn't mention the "recall" but once or twice, but they had a regular old Donnybrook scuffle and "fired" the chairman. Whenever they throw the chairman out of his job, it is a sign that the Ate has had a "perfectly lovely" time.

Their meeting, called to "recall" the recall onto Butternilk Healy of the City Council, nearly ended in a riot in the Bethlehem Institutional Church.

The Southern Pacific had a gang of paid hooters there. They raised a wild rough-house, captured the works and put in a chairman of their own who

Cohen stood directly underneath the pulpit and growled out what the chair was to do next.

A bewildered man with a resolution he was studying over was shoved up from Ben's flock. It was a burning tribute to Barney Healy and the dear S. P.

Before he had read a dozen words, there was a sudden uproar. Out of the bellow and turmoil came cries of "Totten. Shut up." "Hisses, cheers." Ben's wisely chosen words, heard, through this, someone seconding the motion.

was trained to sit up or lie down at the word of command.

In the end, the Ate got its Irish up and threw the whole organization out into the street.

This was a fine large symposium of guileless joy.

After they "bounced" the Southern Pacific men the members of the exchange gaily glanced and had a meeting of their own.

The only thing they didn't talk about was the recall which doesn't "look good" to the Ate; they took it out in lambasting the Southern Pacific to whom Councilman Healy helped to give the Jackson-street franchise.

The best description of the meeting was given by Joe Margolis, a Jew butcher, who is one of the big men of the Ate.

Joe came shuffling and scuffling up to the platform in this "after show."

"Ches," he said with a knowing wink, "Mepe you dink Joe is not knowing something."

"I am plain laborer man. I work mine sausage machine die afternoon when I hear automobile horn say too and somebody wave a hant to me."

BEN COHEN'S MEETING.

The first meeting was personally conducted by Ben Cohen, who had to stir up the whole uproar and then hustle back and tell the company's chairman how to quell it.

One of his hooters became rattled and got to howling down the wrong side.

This caused Ben such additional anxiety that he got separated from the chairman, and the company's resolution, that was cast yesterday in the shops, was lost in the shuffle.

Incidentally, the company forced

"Put the motion," he whispered hoarsely to the chairman.

"All in favor," faltered the chairman, "stop!" yelled a stentorian voice, which slashed through the tangled jumble of roars and shouts.

ENTER COLLINS.

The big form of Mike Collins, losing his vest, shouldered through the throng.

"Out of order," "at down," "shut up," "put him out!" shrieked the S. P. men.

But Mike held his ground. He shook his head like an angry bull.

"This isn't the first time the S. P. has tried to hoot me down," he bellowed back. "I won't get down."

"This isn't the first time the S. P. has tried to hoot me down," he bellowed back. "I won't get down."

Ben whispered hoarsely to the chairman, who rapped weakly on the table and said falteringly, "Please, Mister Collins, please to close the door."

Ben reached out and dragged him coiningly back, growling all the while.

"Just in a minute," he pleaded.

Then, in a savage undertone to the chairman, "Put the motion," he said, wiping the sweat from his brow.

"It will be too late," shouted Collins, plunging out on the floor again.

He started in to speak on Rogers' conduct in voting to give the S. P. this franchise.

Suddenly a succession of howls broke forth from the rear of the hall. Maj. Starin, one of Ben's, had broken loose.

He was yelling: "Point of order."

He was met with a pandemonium of shrieks, but nothing could still him until Ben walked back through the crowd and made him a single sign, at which Maj. Starin sank in a limp heap in his chair.

"I won't be gagged or choked off by the S. P.," yelled Collins. "Why don't you fellows do something? Don't let them pass this thing for Barney."

As he raved on, a single howl interrupted him from the seething swash of struggling men to the right. A little bald Irishman, Terry O'Brien, said in the front to confront Mike Collins, waving his arms while the light glimmered from his bald head.

"I know you when you wor on the Council yourself," he said. "When the Santa Fe wanted to build on Banning street you had no sympathy agin railroad men. You didn't care to keep the Santa Fe or any other fee out of Banning street."

BARNEY INDORSED.

In the laughter, Ben joined through his resolution, wherein the "Ate" stated that it had "the honor" to support "the Honorable B. Healy in his action."

Earl Rogers, who is Healy's attorney, was the only speaker listened to

showed what we are losing in Central America.

But the Chamber of Commerce and other commercial organizations are becoming convinced that practically the whole vast stream of trade between the United States and the Orient should be going through San Pedro.

This city has been calmly getting the grand go-by and not doing anything about it.

Inquiry at the Chamber of Commerce shows that great quantities of cotton and other products of the Southern States actually go through Southern California by train to get to San Francisco and so to the Orient.

Large quantities of mining machinery are brought through here bound for Mexico, Lower California and the South American and Central American ports.

All switched off to San Francisco, but if there is a mortgage of 1900, South, just a little over one thousand miles of the journey being absolutely wasted.

Miner Picks Santa Fe to Out-
run the Espee.

Walter Scott, "Scotty," the long-distance speed maniac, wants to race E. H. Harriman, railroad magnate, clear across the continent on a wager of more than \$50,000. Last yesterday afternoon he telegraphed Harriman making him the offer. He is willing to take the Santa Fe and let Harriman take any of his several lines he may choose. He will consent to either an actual race or to a speed contest against time, and says he will win either.

Scotty returned from Death Valley yesterday afternoon. He brought another "sack" with him, and is looking for more notoriety. This time he has a plan which may attract the attention of the railroad world.

Scotty wants to give Harriman the benefit of the sixty-five miles greater distance between San Francisco and the East. He declares he will race him either on the elapsed time basis or go against him just as two horses race in a match; which is to say that the race may be run either against time or the two may start at the same time and each try to beat the other.

Before making public his latest bid for fame, Scotty studied time tables, saw distances and learned just about what could be expected from the railroads. He made the trip to Chicago in about forty-eight hours and he knows that the Southern Pacific's best "Limited" out of San Francisco makes Chicago in something over sixty-five hours.

As between Chicago and New York, he knows that Harriman could not hope to make much faster time than that made by the two roads which are now running eighteen-hour trains over nearly 100 miles. He therefore comes with his chances good for defeating Harriman if the latter should decide to take up the challenge. As an inducement, Harriman he says he is willing to place a bet of \$25,000 and another of \$25,000 that he will win. This is the way he explained it last night to Rol King:

HE'S WILLING TO PAY.

"I'm only a miner with a little money and Harriman is the owner of a whole railroad system, and can order as fast a train as he wants to. I will have to pay for my train and I'm willing to do it. Harriman, although he is president of the company, cannot get any more out of his men, than I can get out of the men on the Santa Fe. He would sit in his private car and run and see what any time he would ride in the engine and beat the railroad boys with me. I would not have to tell them that if I win I will split up \$50,000 among them; they'd be with me anyway."

Neither Lost Nor Whiskey Ever
Seen by the Interested Parties.

Because Martin Lebovitch of Riverside county is anxious to engage in the saloon business he has entered into a contract which he is now very eager to break.

Hearing that a man named James E. Austin, an oil-well driller, with offices in the Bradbury building, had barrels of whisky to dispose of, Lebovitch came in haste to him to make a dicker for the liquor.

Ten acres of land in the vicinity of Corona, owned by Lebovitch, and on which there is a mortgage of \$1000, was offered in trade for the whisky. Austin took the offer.

That the transaction might be legal the two men, several days ago, went to the rooms of the Los Angeles Trust Company, in the Trust building, and a contract was drawn up and signed.

By the terms Austin received the ten acres of land in Corona and Lebovitch ninety-five barrels of whisky.

The whisky, however, was not in Los Angeles, but supposed to be stored in a warehouse in Chicago.

Lebovitch, who is now in Chicago, he now claims that he could get no answer and failed to trace his precious barrels in the city.

Lebovitch is fearful he will lose his ten acres of land in Corona and believes the whisky is a myth. Yesterday Ida Lebovitch, presumably Martin's wife, telephoned to prevent recording the deed.

Austin was seen yesterday and appeared surprised and shocked to think that Lebovitch would desire to break the contract, as he declared Lebovitch urged the trade and seemed in a hurry to close the deal.

"The whisky is stored in Chicago," said Austin, "in the warehouse of the National Distilling and Warehouse

sports he will take my offer. If he is not, there will have been no harm in making it, but this is a matter which would appeal to every sporting man in the country. If Harriman wants a fast ride let him say so, and we will have a race which will attract the attention of the world."

"If this deal goes through I will take Rol King with me, and for him will make a side bet of \$25,000. He'll go too, and we'll beat Harriman hours, not minutes. I've the money, and if I lose the wager I'll go back into Death Valley and get some more gold."

Scotty has another roll of money larger even than that which started the natives when he was in Los Angeles before. He displayed a bundle of greenbacks yesterday, five inches thick, and the outer one was a \$500 bill. The first place he sought when he reached Los Angeles was the Hollenbeck bar, where he was cloistered with Rol King, the manager, and to him he first unfolded his plan of racing Harriman. King has been Scotty's confidential adviser, and he cautioned him yesterday about going into any such contest, but Scotty insisted that he knows what he can do; that he could afford to lose the money and that he is willing to make the effort. He says he has been assured that the Santa Fe will give him a train to Chicago at regular rates.

Mr. Harriman is in the Orient and will not return for several weeks. Until he does return it cannot be stated whether this novel transcontinental race will be run.
